FOIA/Privacy Act Officer
U.S. Nuclear Regulatory Commission
Mail Stop T-6 D8
Washington, DC 20555-0001

Dear Sir/Madam:

This is a request pursuant to Freedom of Information Act (FOIA) and the Privacy Act (PA), 5 U.S.C. 552 and 5 U.S.C. 552a for access to certain records in the possession of the U. S. Nuclear Regulatory Commission.

In particular, Citizens Awareness Network requests access to any and all documents and correspondence between NRC and Entergy Nuclear related to letter EA-05-098. NRC issued the letter to Entergy May 16, 2005, demanding a response within 30 days. A search of the ADAMS database turns up no subsequent correspondence. This matter pertains to a potential chilled work atmosphere at the FitzPatrick Nuclear Power Station, making this issue a matter of nuclear safety.

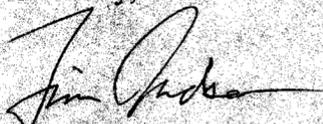

As you know, pursuant to 10 CFR § 9.60, NRC has ten business days to respond to this request by acknowledging receipt and requesting any additional information necessary to process the request. To the extent practicable, 10 CFR § 9.60 also requires that you provide notification of whether the request has been granted, denied, or partially denied at that time. If all or any part of this request is denied, please provide the legal basis under FOIA for such denial and the name and address of the records appeal officer to whom an appeal may be directed.

I am requesting expedited processing of this request because the potential for a chilled work atmosphere at FitzPatrick Nuclear Power Station may pose an imminent threat to public health and safety. I am also requesting a waiver of fees for processing this request because of Citizens Awareness Network's limited financial resources. CAN is a registered 501(c)3 non-profit organization and has no commercial or private interest in the information being requested.

FOIA/PA REQUEST

Case No.: 2006-0185
Date Rec'd: 4-20-06
Specialist: Paul
Related Case: _____

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Judson". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
