Docket No. 52-007

EXELON GENERATION COMPANY, LLC
CLINTON EARLY SITE PERMIT APPLICATION
COPYRIGHT CLEARANCE

The NRC Clinton Early Site Permit (ESP) Project Manager recently advised Exelon Generation Company, LLC (Exelon) of NRC's intent to issue its Final Safety Evaluation Report for the Clinton ESP application as a NUREG publication. In accordance with NUREG-0650, Rev. 2, "Preparing NUREG-Series Publications," NRC requested Exelon to provide copyright clearance for information contained in the application. This letter addresses the requested clearance.

Exelon grants to the NRC the right to use the information contained in Exelon's Clinton ESP application as necessary to issue its Final Safety Evaluation Report as a NUREG publication. This copyright clearance does not extend to any third persons not specifically associated with publication of the NUREG. We understand that pursuant to 10 CFR 2.390, no information marked as proprietary information shall be copied or published. We further understand that NRC will not remove copyright and/or proprietary notices from any information, documents, or materials copied or published. Any and all rights not specifically granted by this clearance are reserved by Exelon.

If you have any questions, please contact Christopher Kerr at 610-765-5814.

Sincerely,

Christopher J. Kerr
Project Manager
