April 24, 2006

Mr. David Edwards
Plant Manager
Honeywell Specialty Chemicals
P.O. Box 430
Metropolis, IL 62690

SUBJECT: MEETING ANNOUNCEMENT - CATEGORY 1 MEETING,
HONEYWELL SPECIALITY CHEMICALS, DOCKET NO. 40-3392

Dear Mr. Edwards:

This letter confirms that a public exit meeting has been scheduled for May 3, 2006, beginning at 7:00 p.m., to discuss the results of the NRC's Special Inspection Team inspection of the April 4, 2006, uranium hexafluoride release event. This event involved a small release of uranium hexafluoride inside the Feed Materials Building which did not result in the release of this material outside of the building. A meeting agenda is enclosed. The meeting will be held at the Metropolis Community Center, 516 Superman Square, Metropolis, IL.

This will be a Category 1 meeting in which the public is invited to observe and will have the opportunity to communicate with the NRC staff after the business portion, but before the meeting is adjourned, as per the NRC policy statement "Enhancing Public Participation in NRC Meetings," published in the Federal Register: May 28, 2002 (Volume 67, Number 102, Page 36920-36924).

Since the meeting will be open to public observation, we request that any documents that you prepare for the meeting do not, to the extent possible, include any personal privacy, proprietary, or safeguards information so that the information may be made available to the public without redaction.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Document Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

D. Edwards
