SUBJECT: COUNTY OF FAIRFAX, AMENDMENT NOT NEEDED, CONTROL NO. 138444

Dear Mr. Puskas:

This refers to your letter dated February 7, 2006, informing this office of transfer of a few of your gauges to another licensee as described in your letter. Transfer of licensed material to another authorized recipient, in general, does not require an amendment to NRC license. However, a licensee is required to maintain complete records of such transfers, including acknowledgments from the recipient(s) of receipt of the material. These records may be reviewed during NRC inspections of licensed activities.

You stated that you plan to transfer the remaining devices containing licensed material to another licensee. A licensee is required to request termination of license when all licensed activities have ceased and all licensed material is transferred to another authorized recipient. Therefore, you will be required to decommission your facilities and request termination of your license as soon as possible following the transfer of all licensed material. Please provide all information requested in NRC Form 314 (enclosed) with your request for termination of your license.

We appreciate your cooperation with us.

Sincerely,

Original signed by Sattar Lodhi, Ph.D.
