Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter or facsimile (610-337-5269). If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.

Sharon,
On April 14, 2006, Penny Lanzisera sent you an email with 3 questions, one of which concerned the HDR. I recently received a letter from Dr. Olmsted stating that the hospital was returning the HDR source, but keeping the device in storage. The plan is apparently to deactivate the HDR program with the option to resume it later. The easiest way to do this is to complete the questions in the April 14, 2006, email and keep the license as is, since we don't mind an empty device. The program could then be reinstated at a later date with no notification to us required. The alternative is to not answer the question until the program is resumed, and wait for an amendment before resuming. The license would then read "for storage only." In either case, I still need the answers to the first 2 questions. There is an internal clock ticking here, and I need the answers within a week. Thank you very much.

Sincerely,
Richard McKinley
