Washington, DC 20555-0001

Ladies and Gentlemen:

Subject: Salem Generating Station – Unit 2
Docket No. 50-311
License Change Request S05-07

PSEG Nuclear LLC (PSEG) submitted the subject change request to the Nuclear Regulatory Commission (NRC) on September 21, 2005. The proposed change would modify the Salem Unit 2 Technical Specifications by changing the scope of the steam generator (SG) tube sheet inspections required in the SG tubesheet region.

The New Jersey Department of Environmental Protection's Bureau of Nuclear Engineering reviewed the request in accordance with the requirements of 10 CFR 50.91(b). We have no comments.

If you have any questions, please contact Jerry Humphreys at (609) 984-7469.

Sincerely,

Kent Tosch
Manager

4001
