Subject:	Removal of 31.11 from Sentara CarePlex license
<small>(NOTE: This will be used as the Documents Title in ADAMS)</small>	

Summary:	<p>This record represents a series of telephone and e-mail discussions.</p> <p>In the letter dated 2/14/06, the request to remove 31.11 from this license stated: "I-125 was last used in 1996 in the previous Sentara Hampton General Hospital facility, which was vacated in 2002 and demolished in 2003." I asked Dave if this means that I-125 was the only isotope to be used under 31.11 under this specific license. Dave referred me to Sandy to answer this question. Sandy stated "According to the oldest lab user able to be contacted, I-125 was the only isotope used in the lab for RIA at Hampton General Hospital."</p>
