I just looked over the attachment from Beaver Valley (BV) on the group work hour review since the FFD order (EA-03-038) inception as of 10/29/03. The attachment is a review of officer work hours from 10/29/03-2/18/05 conducted by an independent team of 23 individuals. Bottom line is that BV independent inspection team (with Jim Davis (NEI) reviewing results) states that it **never violated the group work hour average during this period**, however, the BV inspection team identified **36 violations of exceeding the individual work hour limits** (see Attachment 7 to the enclosed attachment). The plct thickens....

Respectfully,

Alex
