Subject: Notification of Intent to Decommission Traverwood Satellite Facility (License
             Number 21-01443-06)

Dear Ms. Pelke:

This letter is to notify you that Pfizer has decided to cease licensed activities and permanently
decommission the Traverwood Satellite Facility located at 2900 Huron Parkway, Ann Arbor, MI.
The facility is a separate, leased building authorized to use radioactive materials under the Main
Campus radioactive materials license 21-01443-06. The facility will be decommissioned for
unrestricted use and returned to the landlord.

Pfizer has procured Chase Environmental Group (Chase) to perform all decommissioning
activities. Decommissioning will be conducted under the provisions of the Pfizer radioactive
materials license and in accordance with the MARSSIM-based Ann Arbor Satellite Facilities
Decommissioning Plan (DP). A copy of the DP will be maintained in the license files for NRC
review. On-site decommissioning activities at the Traverwood site are scheduled to be
completed during a two-week period beginning May 1, 2006. We will also be performing
decommissioning activities at the Esperion site (materials license 21-32115-01) during this
period.

I appreciate your time and efforts with this matter and look forward to working with you during
the decommissioning process. If you have any questions or concerns, please contact me at 734-
622-4467.

Sincerely yours,

Carol Lentz
Radiation Safety Officer
