Division of Nuclear Materials Safety

Subject: Canberra Dover, Inc. License number **SNM-1946**
Docket No.: 07003010
Mail Control No. 138317

Dear Ms Ullrich:

In response to your March 27, 2006 letter requesting additional information on our SNM-1946 renewal license application, Canberra Dover offers the following information.

1. The sealed Pu-239 alpha sources we currently possess are:
 - Model AN/UDM-7 Alpha Radiac Calibrator Sets, manufactured by Atomchem Corp
 - Model AN/UDM-6 Alpha Radiac Calibrator Sets, manufactured by Eberline Instrument Corp
2. The Radiation Safety Officer for this license is Norman Bischoff.
3. The method of training is a computer based Radiation Safety training course supplied by Landauer®. The radiation workers are trained at the date of hire (or when the individual is issued dosimetry) with a yearly lecture refresher course for all radiation workers.

Should you have any questions or desire any additional information, please get in touch with the undersigned or the Radiation Safety Officer, Mr. Norman Bischoff, at 973-361-5600, extension 333.

Sincerely,
Canberra Dover, Inc.

H.J. Cooley
