*Note: Per our contracts meeting held at NRC HQ on 2/13/2006, and your email concurrence with this modification dated 2/24/2006, the current IMC staff person (FTE) supporting Task 18 is sufficient to cover this additional work, and there is no additional cost to the Government. - coordinate with staff and contractors performing records management control functions for NSIR SGI documents to ensure effective organization of NSIR SGI electronic documents according to an established File Plan.

Current Guidance

The contractor shall follow established guidance for preparing source documents which includes the order in which source documents are retrieved, transported, and processed into the E-Safe repository.

The contractor shall follow guidance from NSIR File Custodians for quality checks and folder management.

The contractor shall follow guidance from OIS records management staff, as needed, for folder management according to an established File Plan.

Future Guidance and Procedures

There is a separate contract which will provide future records management support to NSIR staff for all NSIR documents, including SGI documents contained within E-Safe. In the future, as procedures are developed under that contract, the contractor may be requested to follow guidance on document preparation, quality checks, and folder management for Task 18 that would be described in these future NSIR procedures."
