Subject: Revised Insignificant Burden Paperwork Reduction Act Statement

Cathy,

I had Beth look at the statement again, and she agreed that between yours and ours, yours was much better worded. I am attaching the PRAS for your review.

I will also drop by the final, with a modified version. There were a few minor edits, but everything else looked okay.

Thanks,

Chris

X. Paperwork Reduction Act Statement

This proposed rule amends information collection requirements that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). This proposed rule decreases the burden on general licensees to report losses and thefts under § 20.2201(a). It makes minor revisions to **the** burdens on licensees for reporting and recordkeeping under §§ 31.5, 32.12, 32.16, 32.20, 32.25(c), and 32.29(c). It reduces the burden for new applicants to distribute ionization chamber smoke detectors by allowing them to obtain licenses under § 32.14 rather than § 32.26. **The public burden for this information collection is estimated to average 1 hour per request.** Because the burden for these revisions to **the** information collections is insignificant, Office of Management and Budget (OMB) clearance is not required. Existing requirements were approved by the Office of Management and Budget, approval numbers 3150-0001, 3150-0014, 3150-0016, and 3150-0120.

Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by e-mail to bjs1@nrc.gov.

XI. Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number.
