Andrew,

I must have missed this question, or forgot about it. But when I reread it, I think it would be a good idea for you to send a formal submittal letter for this EA. As I remember correctly, the airport personnel did not have a problem with us making it publically available did they??? Because, after you send me the letter (a pdf version that contains a signature is fine), I will be putting it in ADAMS and making it publically available. Thanks, and sorry it took me so long to recognize this email.

On another note, I have not heard anything from the Fish and Wildlife people, and the letter to the State Historical people was just sent out last week (Monday I think).

Tony

Tony,

Do you need the formal submittal like we talked about yesterday for the EA?

Regards

Andrew
