Subject: Re: statement of environmental consideration

Andrew,

I contacted the fish and wildlife person today to see what was happening. She had turned it over to another person and she has been out for a couple of weeks. She said she would check up on what is going on and get back to me. I forwarded her the tax map key numbers you gave me, to make sure that they had them. I will get back with you when they let me know what is happening.

Tony

Hi Tony,
I hope that everything went well in LA for you, and that you are back safely.

I am sure you are swamped with what has piled up while you are gone, but I have been asked to follow up on this.

I believe you are working on a record of environmental consideration with your discussions with Wildlife and Historical Preservation departments?

Currently the airport manager is waiting for that, to use as part of their determination of what we need to do next in the lease process.

Has anyone gotten back to you from Hawaii? Do you know where it stands?

This is our current step in the critical path.

As you also might know by now, Earthjustice did get a petition in on the last day.

Regards,
Andrew

Andrew,

I have not heard anything from the Fish and Wildlife people. Did they ever contact you to get the Tax Map Key numbers??? My contact with them was more informal. The State historical people needed me to write a letter, and unfortunately I was going to do that Monday, but they sent me to Louisiana to help the State radiation people (hurricane Katrina and Rita). I am in Louisiana right now and may be here until the 6th or 7th of October. I will keep you informed.

Tony

Tony,

Just curious if you had found out more from the respective agencies, and if so if there were a problem.

Thanks

Andrew
