Subject: Fw: Request for point of contact in USGS

Aloha Jim,

I am forwarding to you an email that seems to belong to the head of USGS Geology in Hawaii. To keep others informed, I am also cc'ing 3 of the 4 REX's. Please let Dr. Torres know who he should work with on this issue.

I am in California this week, and then will be on vacation for 3 weeks. If you need any water-resource information for this subject, please contact Steve Anthony (587-2406) or Barry Hill (587-2407), though I don't think we have much to offer.

Thank you ... g

PS - An asphalt parking lot in Sacramento at 4 pm is reminiscent of a 12 hour-old lava flow, but not as pretty)

Gordon Tribble
Director, USGS Pacific Islands Water Science Center
808-587-2405

Subject: Request for point of contact in USGS

(Embedded image moved to file: pic10459.jpg) This email is a followup to the message that I left in Gordon Tribble's voicemail (808-587-2405). The U.S. Nuclear Regulatory Commission (NRC), RIV in Arlington, Texas, received a request from Pa'ina Hawaii, LLC, for the installation of an underwater pool type commercial irradiator. The proposed location is nearby the Honolulu airport (see attached press release). NRC Region IV needs to identify a point of contact in USGS Hawaii with whom we can share technical information (seismic, volcanic, etc.). NRC plans to conduct several public meetings and prelicensing visits in Hawaii during the construction phase. We also plan to meet with Federal (USGS, USDA, FDA), State, and local representatives in Hawaii starting in early August 2005.

Please identify a USGS point of contact via reply email to Jack Whitten, Branch Chief, Anthony D. Gaines, and Roberto Torres. Thank you.

Roberto J. Torres
Senior Health Physicist
U.S. Nuclear Regulatory Commission, Region IV
Division of Nuclear Materials Safety
