Subject: Request for point of contact in FAA

This email is a followup to the message that I left in your voicemail. The U.S. Nuclear Regulatory Commission (NRC), RIV in Arlington, Texas, received a license application request from Pa'ina Hawaii, LLC, for the operation of an underwater pool type commercial irradiator. The proposed location is nearby the Honolulu airport (see attached press release-pdf file). NRC Region IV needs to identify a point of contact in FAA with whom we can share information about this application. NRC plans to conduct several public meetings and precicensing visits in Hawaii during the construction phase. The first public meeting is going to be held in Hawaii on August 31, 2005 (see attached email). FAA is invited to be part of the audience.

Roberto J. Torres
U.S. Nuclear Regulatory Commission, Region IV
Division of Nuclear Materials Safety
Nuclear Materials Licensing Branch
