NRC Docket Nos. STN 50-454 and STN 50-455

Subject: Byron Station Physical Security Plan and Safeguards Contingency Plan  
Revision 2

In accordance with 10 CFR 50.54, "Conditions of licenses," paragraph (p)(2), Exelon Generation Company, LLC (EGC) is submitting Revision 2 to the Byron Station Security Plan. The changes to the Byron Station Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan were implemented on April 7, 2006. In accordance with 10 CFR 50.54(p)(2), EGC is submitting this change within 60 days of implementation (i.e., June 6, 2006).

The Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan have been revised to:

1. Increase the minimum number of security responders by defining additional armed responders that the site maintains in order to implement the protective strategy.
2. Clarify the meaning of ready access to contingency equipment when implementing the protective strategy, based on NRC staff recommendations contained in SFAQ # 05-03, revision 1.

EGC has concluded that the changes do not decrease the safeguards effectiveness of the Byron Station Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan.
