Re: License #45-25383-01

Dear NRC:

This letter is to confirm the resignation, effective May 1, 2006, of Mr. Melvin V. Fravel, Jr. from Core Drilling Services, Inc. (CDS). As Mr. Fravel leaves vacant the position of Corporate RSO for CDS, I wish to inform you that all services performed by CDS requiring the use of nuclear materials and equipment have been suspended until such time as we have retained a qualified and certified replacement RSO for CDS.

As an extra precaution, I have directed my Operations Staff to secure all nuclear materials and equipment with additional security locks, the keys for which are not available to any CDS personnel.

At this point in time, my intent is to restart the business services utilizing nuclear materials and equipment, but not before regaining full compliance with all NRC/MDE guidelines regarding Corporate RSO requirements.

I will keep you fully informed as to our status as we go forward.

Sincerely,

Chris Stevenson, PE  
President

CS/lor
