ADM002

The purposes of this modification are to: (1) allot incremental funds in the amount of \$92,000; and (2) reallocate some of the cost set-aside for other direct costs (hardware/software) and travel during the base period towards an additional telecommunication engineer during the second base year. Specific changes to the contract are identified below.

The amount presently obligated with respect to this contract is \$656,866. The contracting officer may issue orders for work up to the amount presently obligated. This obligated amount may be unilaterally increased from time to time by the Contracting Officer by written modification to this contract. The obligated amount shall, at no time, exceed the contract ceiling as specified in paragraph a above. When and if the amount(s) paid and payable to the Contractor hereunder shall equal the obligated amount, the Contractor shall not be obligated to continue performance of the work unless and until the Contracting Officer shall increase the amount obligated with respect to this contract. Any work undertaken by the Contractor in excess of the obligated amount specified above is done so at the Contractor's sole risk.
