**Subject:** Beltsville Decommissioning Plan

I had trouble getting the decommissioning plan from the contractor on schedule (it was supposed to be done in early November) and saw it for the first time on Monday. Some corrections were needed and the contractor was again slow to respond. We didn't get to finalize it today.

I was not able to send you the decommissioning plan through my network - I got an error message that indicated the files were too large. I asked Kim Nelson of Cabrera Services to send it to you and am hoping that it reached your office today. Also, I tried to fax you the cover letter so it wouldn't be a surprise but the fax did not go through.

I will not be in the office tomorrow but I am available by cell (240-417-8127) if you need to reach me. Please let me know if you think we are in compliance with our license condition or not. Thanks.
