Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Response to April 14, 2006 letter.	
Summary:	<p>I left a message on Dr. Berocci's voice-mail requesting that he get back in touch with me. (5/8/2006 14:25)</p> <p>Dr. Bertocci returned my phone call. I asked Dr. Bertocci about the status of the reply letter to the Commission's requests for information. He stated that a reply had been drafted and given to the president for signature. The intention of the licensee is to maintain the license even though no licensed material is possessed. The reply should be received before 5/12/2006. I reminded Dr. Bertocci that if there were no licensed activities in two years that notification to the Commission would be required and the decommissioning process would need to be started. Also, that in order to gain free release for the laboratories where carbon-14 and tritium were used close-out surveys would need to be performed. Dr. Bertocci indicated that he understood.</p>
