Jim will be available Wed at the time you requested (10:00)

I will have to see you Monday or whenever you have time, as I switched with someone last time to get out of the drill, and that will not be a possibility this time. I may be able to get a break for a few minutes Wed. I'll investigate.

Dear Steve,

Monday afternoon was my only available alternative and I checked with Jim Kottan, and he will not be onsite until Tuesday morning. The rest of his (and my) schedule is full. I hope you (and Jim Peters) will be able to support us on Wednesday morning as requested.

Regards,

Jim

Jim.....

I see you would like to speak to us regarding 80-10 next Wednesday.

Did you know there is an emergency exercise Wed next week? I will be playing most of the day. Guy Blankenbiller may be available to take you through the labs... But I believe Jim Peters is also playing in the drill. Is there any way to schedule your discussion of 80-10 and storm drains later on Wed or perhaps Tue afternoon?
