Subject: Re: Fwd: Cintichem Consent Order

Jim - Tim forwarded your message to me. Our Cintichem files are in storage, but I believe I kept a copy of the Order here for reference. I'll try to track that down today. I'll also send the regs we cited.

Barb

Dear Tim,

I left you a voice message that was chopped off. Barbara Youngberg indicated that New York State does have a regulation that prohibits ground water contamination. We are not familiar with this regulation. Can you send me an applicable excerpt? I believe the NRC needs to adopt a similar rule. She also mentioned the Cintichem Order on consent #D200059005. Any chance I could get a copy so we know what actions are possible? My fax # is 610-337-5320. Thanks for your help.

Regards,

Jim
