## Indian Point Energy Center Status Report

February 15, 2006

### Operational Status

Indian Point Unit 2 is operating at 100% and has been online 55 days. Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 134 days. Operations and maintenance crews are making plans for 2R17 refueling outage at IP2 scheduled to begin in April.

### IPEC Hosts Tritium Workshop

Experts from around the industry met at Indian Point on Tuesday to discuss their investigations into tritium contamination. The workshop, hosted by members of the Indian Point tritium investigation team, drew participants from Salem, Brookhaven National Lab, Seabrook and Yankee Rowe.

The project managers and geologist shared lessons learned regarding sampling protocols, laboratory analyses, and ground water modeling.

### Educational Outreach

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.

*Bill Axelson from Indian Point asks a question from one of the industry experts who met to discuss the technical detail of tritium investigations and exchange operating experience.*
