Subject: Re: FW: Requested Sample Data

Dear Don,

On the morning of Feb 28th, GZA and Steve Sandike presented the latest dose calculation based on a water balance method developed by Matt Barvenik. We have some followup questions with Matt. Would like to set up sometime on Wednesday or Thursday this week to call him. Prior to that call, we would like to get an electronic version of the site map layed out in 4 Areas and Zones A-E. This GZA map was included as Figure 2 in the handouts we were given. It was printed from a computer screen with a title of \\Desktop\indianpoint\CAD\_2-14-06\Surveyor-Source\gzasw.dwg. Thanks, Don.

Regards,

Jim

Subject: FW: Requested Sample Data

To all;

Please note that the previous version of this listed the samples taken in February as 2005. They were actually taken in 2006. The report has been changed to reflect this oversight.

Thank you for your time and consideration.

Ron LaVera CHP
