Indian Point Energy Center Status Report

February 23, 2006

Operational Status

Indian Point Unit 2 is operating at 100% and has been online 63 days. Indian Point Unit 3 is operating at 100% reactor power and has been on-line for 142 days. Operations and maintenance crews are making plans for 2R17 refueling outage at IP2 scheduled to begin in April.

NRC Commissioner Jaczko Visits Indian Point

NRC Commissioner Gregory Jaczko spent this afternoon at Indian Point. He was briefed on security issues, emergency planning including the new siren replacement project, dry cask storage and the tritium investigation. The Commissioner was accompanied by Sam Collins, Region I Administrator for the NRC and other staffers.

The Commissioner toured the facility with special emphasis on the IP2 spent fuel pool building. At an employee meeting, he spoke to employees and answered questions on a range of topics including new nuclear plants and high level waste disposal.

On Wednesday and Thursday, the Commissioner met with local government officials and other stakeholders before visiting the station.

Status Report Available on JIC Website

The Indian Point status report is now available on the new Joint Information Center web site. The web site is part of the virtual news room concept that is being developed for public emergency information. Starting next week, the status report will be sent to the distribution list via the web site. The web site will also include the latest radiological release information for Indian Point.
