SAFETY EVALUATION REPORT
Model No. S3G Core Basket Disposal Container Assembly Package
Certificate of Compliance No. 9786
Revision No. 6

SUMMARY

By application dated March 7, 2006, the U.S. Department of Energy (DOE) requested renewal of Certificate of Compliance No. 9786, for the Model No. S3G Core Basket Disposal Container Assembly package. DOE did not request any design changes to the package. A minor change was made to the certificate to allow for a one year overlap with the previous certificate. The certificate has been renewed for a term expiring August 31, 2011.

EVALUATION

DOE submitted a request for the renewal of Certificate of Compliance No. 9786, for the Model No. S3G Core Basket Disposal Container package on March 7, 2006. DOE did not request any changes to the package design or authorized contents. The staff reviewed the documents referenced in the certificate and determined that the documentation was available and complete.

The certificate was revised to include Condition No. 11, which authorizes use of the previous revision of the certificate for a period of approximately one year.

CONCLUSION

The certificate has been renewed for a five year term that expires on August 31, 2011. This change does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

Issued with Certificate of Compliance No. 9786, Revision No. 6,
on May 12, 2006.
