RE: Letter of disposition of Linear Accelerator Containing depleted Uranium

COMMENTS: _____

Mr. Reglin,

A copy of the letter (via email) from Varian regarding the removal of accelerator from Norwalk hospital is enclosed. The contact number of the person is also given in the letter.

Hope this is adequate. Sincerely, Balan Kodery

RE: Equipment Removal
2100C #208 *Linear Accel Levator*
Odelft Simulator

Dear Mr. Haynes:

Varian will remove this equipment and send it to our Chicago Remanufacturing Storage Center. We currently do not have plans to resell either piece of equipment and anticipate that we will dismantle and scrap these units. If you require confirmation as to when we actually scrap the equipment or if plans change and an end user purchases either piece of equipment please let us know and we will send a confirming letter at that time.

Sincerely,

Anne L. Grady
