**Message:**

Dear Dr. Lodhi,

As per our conversation of May 15, 2006, I reviewed the license amendment to Materials License Number 20-00822-08 and noticed that Cs-137 removed from "Item 6, Byproduct, source, and/or special nuclear material." The University of Massachusetts Amherst has a Troxler gauge in inventory that is no longer being used but is in storage that I did not include in my April 19, 2006 correspondence via fax to you.

Please add the following to our license reference above:

Manuf.	Model	Serial No.	Isotope	Activity	Activity Date
Troxler	2376	232/C-356	Cs-137	5.1 mCi	4/26/1978

Please use the data attached instead of that listed on my fax of April 19, 2006 as the correct representation our current inventory.

Please contact me directly at the number below for any other questions or information regarding this matter.

Sincerely,

Vincent D. Chase, CHP  
Radiation Safety Officer  
Program Head, Radiation Safety Services
