MEMORANDUM TO: Darrell J. Roberts, Chief
Plant Licensing Branch I-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

FROM: G. Edward Miller, Project Manager */RA/*
Plant Licensing Branch I-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

SUBJECT: OYSTER CREEK NUCLEAR GENERATING STATION,
DOCUMENTATION OF DECISION (TAC NO. MC9692)

By letter dated January 24, 2006, as supplemented by letter dated April 18, 2006, AmerGen Energy Company, LLC requested Nuclear Regulatory Commission staff approval of a revision to the Oyster Creek Nuclear Generating Station emergency action levels. The purpose of this memorandum is to document the decision to remove the Balance-of-Plant branch from concurrence on the safety evaluation. Although initially the Balance-of-Plant branch requested to be on concurrence, upon review of the final package, it was decided that the responsibility for the review was contained entirely within the Licensing and Regulatory Improvements Branch, Division of Preparedness and Response, Office of Nuclear Security and Incident Response. The e-mail documenting this decision is available in the Agencywide Documents Access and Management System under accession number ML061320058.

Docket No. 50-219
