Radiation Safety Officer
Jefferson Memorial Hospital
P. O. Box 350
Crystal City, MO 63019

Dear Dr. Shaplin:

Enclosed is Amendment No. 24 to your NRC Material License No. 24-18315-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please note that Dr. Stadnyk was not added to your license as an authorized user at this time. Training and experience for authorized users was revised as of April 29, 2005. As a result, the board certifications approved by the Commission changed and the American Board of Radiology (ABR) is no longer an approved board. If in the future you wish to pursue adding Dr. Stadnyk to your license, please provide his training and experience as required by 10 CFR 35.190 and 35.290 for the use of 35.100 and 35.200 material.

Also note that the Region III office address has changed (see the above letterhead) and please include your license number on future correspondence.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script that reads "Toye L. Simmons".
