Greetings:

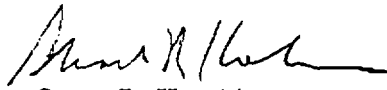

03012270

With reference to our request for license amendment (control number 138742) to our byproduct materials license 06-17145-01, please note that we are requesting addition of Dr. Kenneth K. Hines Jr., not Dr Kenneth K. Hines, as an authorized user. We request authorization for materials in 35.300 except Au-198 and I-131 for treatment of thyroid carcinoma.

We have previously sent a copy of agreement state license 2529-1 which supports Dr. Hines Jr. as having been listed as an authorized user for materials listed in Florida 64E-5.630 (except Au-198 and I-131 for treatment of thyroid carcinoma).

Thank you for allowing us to modify our request. This request has been approved by Clarence Silvia, President Bradley Memorial Hospital. Please call us if you require additional information.

Sincerely,

Stuart R. Korchin  
Radiological Physicist
