

April 20, 2006

MEMORANDUM TO: Larry W. Camper, Director
Division of Waste Management,
Office of Nuclear Material Safety and Safeguards

FROM: Margaret M. Doane, Deputy Director **/RA/**
Office of International Programs

SUBJECT: UNITED KINGDOM'S ENVIRONMENT AGENCY SOLICITATION OF
CONSENT FOR PROPOSED IMPORTATION OF CONTAMINATED
LEAD FROM THE BRITISH NUCLEAR GROUP BY DURATEK

We are in receipt of a March 30, 2006 fax from the Environment Agency of the United Kingdom in which they solicited NRC consent to the import of contaminated lead from the British Nuclear Group by Duratek of Tennessee. The proposed import is described in the Attachment.

Based on our review of the information provided and discussions with Duratek, OIP believes that this import is authorized under a general import license (10 CFR 110.27), if the activity is consistent with Duratek's domestic license. OIP has forwarded this information to the State of Tennessee and upon receipt of their response as to whether the proposed activity is permitted under Duratek's domestic license, OIP intends to respond to the United Kingdom Environment Agency accordingly. Should you have questions or wish to discuss this matter, please contact me, 415-1780 or Steve Dembek 415-2342, at your earliest convenience.
