FROM: Daniel J. Graser \RA\
Licensing Support Network Administrator

RE: Revised LSN Guideline 19

Licensing Support Network (LSN) Guideline 13, "Submitting Text Files or Image Files," was recently revised to clarify how a party should address the requirement noted in 10 C.F.R. 2.1003(a)(1) that "[c]oncurrent with the production of the electronic files will be an authentication statement for posting on the LSN Web site that indicates where an authenticated image copy of the documents can be obtained." The revised guideline included the participant communicating to the LSN Administrator (LSNA) the approach a participant is following, and the LSNA noting the broad strategy on the revised "Document Requests / POCs" LSN web page.

LSN Guideline 19, Records Management and Official Docket Requirements, Section 19.1, Best Available Copy, contained reference to authentication of images. The section has been revised to reference LSN Guideline 13, and is being transmitted to you via this memorandum. A change (addition or deletion) from the previous version of the guideline is identified by a vertical bar in the margin. As a result of the above modifications to the guideline, the Table of Contents was also revised.

This guideline in no way affects or supersedes or otherwise relieves a participant from compliance with the Commission's Rules of Practice in 10 C.F.R. Part 2. They document the decisions reached by the LSNARP and the implementation of the LSN technical solution.

Please delete or remove the current Cover and Table of Contents and Guideline 19 and replace them with the attached revisions. The online guidelines posted on the LSN web site will be revised accordingly.
