**Date of Telephone Conversation:** 6/04/01  
**Time of Telephone Conversation:** 2:30 p.m. EDT  
**Topic of Discussion:** Water System Data provided by Massachusetts Environmental Protection Dept.

**Jason Technologies Representative for Telephone Call:** Mary Hoganson, TtNUS

<b>Personnel Involved in Telephone Conversation</b>	<b>Company/Organization Representing</b>
Mary Hoganson	Tetra Tech NUS
Larry Dayian, (508) 946-2769	Massachusetts Environmental Protection Dept.

**Summary of Conversation:**

Mr. Dayian indicated that the authorized withdrawal volume provided by the Massachusetts Environmental Protection Dept. was the same as capacity.

Mr. Dayian indicated that the future outlook for meeting increased drinking water demand in the towns for which data was provided was bleak. However, he stated that of all the towns in the data set, the Town of Plymouth was the only one that has the resources to attempt to develop additional drinking water capacity (i.e., available undeveloped land to try to drill new wells).
