

May 18, 2006

LICENSEE: Exelon Generation Company, LLC
FACILITY: Clinton Power Station
SUBJECT: SUMMARY OF THE MAY 11, 2006, PUBLIC MEETING TO DISCUSS THE CLINTON END-OF-CYCLE PLANT PERFORMANCE ASSESSMENT

On May 11, 2006, a public meeting was held at the Vespasian Warner Public Library in Clinton, Illinois between the Nuclear Regulatory Commission (NRC) and the Clinton Power Station management and staff. The purpose of the meeting was to discuss NRC's assessment of the performance of the Clinton Power Station for the period of January 1, 2005, through December 31, 2005.

The NRC presentation provided an overall assessment of the Clinton Station's performance as described in NRC's Annual Assessment Letter - Clinton Power Station, dated March 2, 2006, (reference ADAMS accession number ML060610128). The Clinton Station operated in a manner that preserved public health and safety, and fully met all cornerstone objectives.

Mr. Mike McDowell, Clinton Plant Manager, responded on behalf of the licensee and Clinton Power Station. Mr. McDowell provided overview information on the station's accomplishments for 2005 with particular emphasis on industrial safety performance and the successful completion of security "force-on-force" drills at the station. Mr. McDowell also discussed the station's focus areas going forward. A copy of the licensee's slides was incorporated into the NRC presentation.

The meeting notice and NRC presentation can be found in ADAMS as ML061100375 and ML 061370680 respectively. A list of meeting participants can be found in the attached Enclosure.

Before adjourning the meeting, the NRC provided the opportunity for members of the audience to ask questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
