Dear Mr. Courtemanche:

Pursuant to your conversation with Michael Lairmore on May 5, 2006, the following responses are provided in support of our pending amendment request.

1. We confirm that Michael Lairmore our prospective radiation safety officer, will allocate approximately three hours/week working on our radiation safety program. Specifically, these three hours will be provided reviewing radiation safety records and discussing radiation safety issues with the nuclear cardiology staff. This oversight and review will be provided off site.
2. We confirm, our new imaging center is a new site location. This facility has not been operated by a previous Nuclear Regulatory Commission and/or Agreement State licensee.

We thank you in advance for your assistance with this pending licensing action.

Sincerely,
