MAY 18 2006

Eung Man Cha, M.D.
Daviess Community Hospital
1314 East Walnut
P.O. Box 760
Washington, IN 47501

Dear Dr. Cha:

Enclosed is Amendment No. 15 to your NRC Material License No. 13-16138-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

If you have any questions or require clarification on any of the information stated above, you may contact me at (630) 829-9841.

At this time I deleted Condition No. 14, as it appeared on Amendment No. 14, because it is not appropriate for your license. I added a new Condition No. 14 to prevent you from having to submit an emergency response plan, in accordance with 10 CFR 30.72, because you have not listed a possession limit for iodine-131 in Subitem No. 8.C.

In a future amendment please specify a total possession limit for materials in 10 CFR 35.300, especially iodine-131, in Subitem No. 8.C. Your possession limit should be realistic for your needs, including waste streams and future needs, and be less than but not equal to 10 curies.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".

Colleen Carol Casey
Materials Licensing Branch
