SUBJECT: SUMMARY OF APRIL 20 - 21, 2006, PUBLIC MEETING AND  
WORKSHOP ON DRAFT REGULATORY GUIDE (DG-1145),  
COMBINED LICENSE (COL) APPLICATIONS FOR NUCLEAR POWER  
PLANTS (LIGHT WATER REACTOR EDITION)

On April 20 and 21, 2006, the Nuclear Regulatory Commission (NRC) staff met with approximately **75 combined license (COL) application stakeholders in a public meeting and workshop** to discuss the development of the draft regulatory guide (RG), DG-1145, "Combined License Applications for Nuclear Power Plants (LWR Edition)."

The staff discussed the logistics involved in the public development of the RG, including opportunities for public involvement and feedback to previous public comments. The staff also addressed efforts to coordinate the developments of DG-1145 and the update to the Standard Review Plan.

During the meeting, the staff discussed five specific sections of the RG that have been placed on the NRC web site as work-in-progress documents:

- (1) Section C.I.4, "Reactor;"
- (2) Section C.II.3, "Environmental Report;"
- (3) Section C.III.3, "Finality of an Environmental Impact Statement Associated with an Early Site Permit;"
- (4) Section C.III.4, "COL Action Items;"
- (5) Section C.IV.4, "Operational Programs;" and,
- (6) Section C.IV.7, "Pre-Application Activities."

The staff solicited comments and questions throughout the meeting. Questions submitted to the staff on DG-1145 will be posted on the NRC website. It is the staff's intent to develop responses to these questions and compile all the questions received prior to the issuance of DG-1145 for review and comment. The questions will be published in Section C.IV of the draft RG.

Additional public meetings are planned prior to the scheduled issuance of DG-1145 for review and comment in June 2006. Future meeting notices will specify the dates and specific sections of DG-1145 to be presented and discussed.
