Subject: Re: Petition for recognition of AOBR

Ms. Smith,

This e-mail is to follow up our telephone conversation yesterday with a request for additional information. Please provide dates when AOBR's Diagnostic Radiology certification program has met the requirements for 10 CFR 35.290 and 35.392 and when AOBR's Radiation Oncology certification program has met the requirements for 10 CFR 35.390, 35.490 and 35.690. Different date may be used for the two different specialties as well as for the different categories of use.

Also, as discussed, the web site contained a typographical error. In the second sentence of paragraph I under the heading "Training for imaging and localization studies," the phrase "uptake, dilution, and excretion studies" should be replaced with "imaging and localization studies." Please update your website and provide NRC with a copy of the website information.

Your response may be done via e-mail.

Thank you,
Cindy
