SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2006-005)

Dear Mr. Keenan:

This refers to an investigation conducted by the NRC Office of Investigations (OI) regarding activities at the Diablo Canyon Nuclear Power Plant. OI initiated the investigation to determine whether Diablo Canyon management willfully violated Technical Specifications in the licensing application for certain senior reactor operators.

Based on the evidence developed during the investigation, testimony, and document reviews, the allegation was not substantiated. The NRC plans no further action and considers this investigation closed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
