Subject: GAO IPv6 Follow Up Question

Good Afternoon,

I have one follow up question regarding the IPv6 Transition Guidance. I have sent the email to the person who responded to our January IPv6 Information Request, and I have also CC'd agency GAO liaisons. I would appreciate a response, via email, as soon as possible, so that we may include responses in our report. We will not, as stated previously, identify individual agency responses, but will instead report answers in aggregate form.

Question 1: When we sent out our initial IPv6 information request at the end of January, several agencies identified the lack of guidance as a key challenge in transitioning to IPv6. Since then, the CIO Council's Committee on Architecture and Infrastructure (AIC) has issued a series of Frequently Asked Questions and a guide titled IPv6 Transition Guidance version 1.0, February 2006. We are trying to determine whether guidance for the IPv6 transition is still a challenge. Please comment on the timing and usefulness of the guidance issued by the AIC. Also indicate what other guidance you are using to support your IPv6 transition efforts. If you have any questions please feel free to contact me.

Thanks,

Camille M. Chaires
