

UNITED STATES
NUCLEAR REGULATORY COMMISSION

Region III
LISLE, ILLINOIS 60532

September 7, 2004

MEMORANDUM TO: Mark Ring, Chief
Projects Branch 1
Division of Reactor Projects

FROM: Kenneth Riemer, Chief *Kenneth Riemer*
Plant Support Branch
Division of Reactor Safety

SUBJECT: DRESDEN NUCLEAR POWER STATION
DRS INPUT TO INTEGRATED REPORT 50-237/04-10;
50-249/04-10

Attached is a DRS report input for Dresden Nuclear Power Station Inspection Report 50-237/04-10; 50-249/04-10. This input provides the results of a one-week inspection ending July 22, 2004, which focused on the licensee's radiological environmental monitoring and radioactive material control programs under the public radiation safety cornerstone. Additionally, data collection and analysis methods for the public radiation safety performance indicator (offsite dose from radiological effluents) was verified for accuracy. I have reviewed this input and have determined it is ready for distribution to the licensee and dissemination to the public.

The following inspection procedure status information was input by our inspector into RPS on July 28, 2004, for this inspection effort:

- IP 71122.03, ten samples completed
- IP 71151, one sample completed

Attachment: Input to Inspection Report 50-237/04-10;
50-249/04-10
