Docket No. 50-312
Rancho Seco Nuclear Generating Station
License No. DPR-54
RANCHO SECO LICENSE TERMINATION PLAN ELECTRONIC COPY

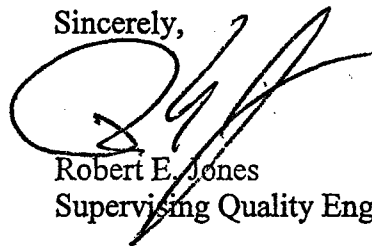

Attention: John Hickman

In SMUD letter MPC&D 06-035, dated April 12, 2006, we submitted the License Termination Plan (LTP) for Rancho Seco Nuclear Generating Station. As I understand it, the NRC was not able to process the electronic copies of the LTP into ADAMS due to the way that we generated the PDF files on the CD.

Accordingly, we have generated new PDF files using the guidance in the NRC's desk reference guide for generating PDF documents. Hopefully, the PDF files on the attached CD will resolve the problems with the initial CD.

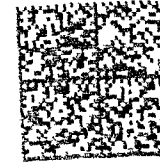

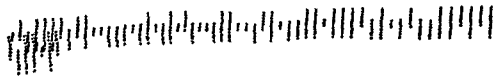

If you or members of your staff with have questions requiring additional information or clarification you may contact me at (916) 732-4843.

Sincerely,

Robert E. Jones
Supervising Quality Engineer
