SUMMARY

We have reviewed your letter dated March 17, 2006, requesting an amendment to your byproduct materials license and find that we need additional information as follows:

1. Although the 313A forms you used indicate throughout that "Dates and/or clock hours" should be listed, we need to see BOTH dates AND clock hours for the training Dr. DiPonio received from Dr. Chestnut. Please obtain either a revised 313A form or a letter from Dr. Chestnut specifying the dates when Dr. DiPonio trained with him at Spectrum Health Hospitals.
2. At this time, please specify a total possession limit for materials in 10 CFR 35.300, especially iodine-131, in Subitem No. 8.C. This is necessary to prevent your having to submit an emergency response plan in accordance with 10 CFR 30.72. Your possession limit should be realistic for your needs, including waste streams and future needs, and be less than but not equal to 10 curies. Most licensees request one curie, a few request 3 curies or something similar.
3. Please refer to Regulatory Issue Summary RIS 2005-31 at:

<http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf>

A hard copy of this document should have been sent to you already. Please refer to Table 1, Attachment 2, page 19 of 19, especially and note the activity thresholds listed for materials commonly included in 10 CFR 35.400.

At this time please specify which radionuclides in 10 CFR 35.400 you want authorization for and please include manufacturer's names/model numbers and especially possession limits for each radionuclide. We must now review license applications and prepare license documents in accordance with this RIS and the requested information is necessary to complete that review.

Please also be reminded of the provisions in 10 CFR 30.9(a), "Completeness and accuracy of information,"..."(a) Information provided to the Commission by an applicant for a license or by a licensee or information required by statute or by the Commission's regulations, orders, or license conditions to be maintained by the applicant or the licensee shall be complete and accurate in all material respects."

"NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, this record is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>."

---

ACTION REQUIRED

Submit the requested information within **30 calendar days (by June 16, 2006)** by referencing control number **315343** to facilitate proper handling. If we do not receive an adequate response by this date, we will **VOID** the current action without attempting to contact you further and without prejudice to resubmission of your request at a later date. Upon receipt of your response we will reactivate placement of your request in our database and resume our review. Address your written response to my attention at the above address.

PLEASE NOTE THAT A "VOID" IS AN ADMINISTRATIVE PROCEDURE THAT PUTS YOUR AMENDMENT REQUEST "ON HOLD" (TAKES IT OUT OF OUR ACTIVE CASEWORK DATABASE) UNTIL YOU REACTIVATE IT VIA A WRITTEN RESPONSE. IT "BUYS" YOU TIME TO PREPARE A QUALITY RESPONSE AND IS GENERALLY REGARDED AS A "GOOD THING."

**PLEASE DIRECT ANY QUESTIONS YOU MAY HAVE TO ME AT 630-829-9841.**
