Docket No. IA-05-054, ASLBP No. 06-847-03

Dear Ms. Penny,

We have reviewed your fax of May 15, 2006 regarding documents missing from our April 25, 2006 mandatory disclosures. In response to your fax, we have reviewed our index and privilege logs and checked our boxes containing the originals of the hard copies we sent to you on April 25. Most of the gaps in bates numbering you identified either correspond to documents on one of our privilege logs or documents exempt from disclosure (irrelevant). We identified nine documents that should have been included in our initial production but were inadvertently left out of the production. Copies of five of those documents are enclosed. We are continuing to search for the following four documents:

Bates Begin	Bates End	Full Name
08156	08182	Email with 13RFO Presentation-Redacted
08183	08183	Budget for Head Repairs
08184	08191	FENOC Internal Budget Funding Request-Redacted
08192	08195	FENOC Budget Info-CRDM-Redacted

As soon as we located these four documents will forward them to you.

We apologize for the error you identified in the first CD. In researching the problem we became concerned that there may be similar problems in the other CDs. In light of this concern, we have enclosed a new set of CDs (CDs 1 through 11). We asked that you return all of the CDs we sent on April 25.

Also in researching the problem with the CDs, we discovered a few (10) documents which had inadvertently not be included in our disclosure. We are filing a supplemental production of these documents.

In addition, a few points of clarification may assist you in reviewing the documents:

- Documents produced in hard copy as wells as documents produced on compact disk were stamped with bates numbers before they were reviewed for relevance or privilege. Thus, it is to be expected that are gaps in the bates numbers.
- The documents listed below are missing pages. The missing page should appear on the same CD immediately following the document to which they belong.

Bates Begin	Missing Page
NRC005-1902	NRC005-1904
NRC005-2931	NRC005-3110
NRC011-2494	NRC011-2500
NRC023-2473	NRC005-2479
NRC023-2765	NRC023-2785
NRC025-0594 (009982TIF)	NRC25-0595 (009983TIF)

- The letter "A" following a bates number, e.g., 03707A, indicates that the document contains redactions. The document will be listed on the appropriate privilege log without the "A" following the bates number.

If you are unable to locate documents we believe are in the box, we will recopy the box and mail it to you.

Sincerely,

/RA by Mary C. Baty/
