MEMORANDUM TO: File

FROM: Armando Masciantonio, Sr. Reactor Systems Engineer */RA/*
Performance Assessment Branch
Division of Inspection and Regional Support
Office of Nuclear Reactor Regulation

SUBJECT: UPDATE FOR THE FOURTH QUARTER OF 2005 MONTHLY
OPERATING REPORTS

A Notice of Availability was published in the Federal Register on June 23, 2004 (69 FR 35067) to facilitate the removal of a provision in the technical specifications (TS) of operating nuclear power plants that required submitting a monthly operating report. As described in the notice and subsequent license amendments for specific power plants, the removal of the TS requirement was supported by the development of the Consolidated Data Entry (CDE) project by the Institute of Nuclear Power Operation (INPO). Licensees enter the data that had been included in monthly operating reports into the CDE and it is provided by INPO to the NRC staff each quarter. We remain in a transition mode where some licensees are providing the data via the CDE and others are continuing to submit monthly operating reports.

A list of those nuclear units that used the CDE to provide the monthly operating report data for the fourth quarter of calendar year 2005 is available in ADAMS Accession No. ML053480048. The data, in a format similar to the traditional monthly operating reports, are provided in Attachment 1 (ADAMS Accession No. ML061510266).
