(908) 780-2030

SUBJECT

letter dated 12/10/92 + request to terminate

SUMMARY

Dr. Doener stated that he will vacate the facility by April 30, 1993. He also stated that his physicist performed wipe test of CS-732 source and concluded that it was leaking. I asked the activity removed he did not know of Rand but indicated it was slightly leaking. I asked if he had notified the NRC when the source was determined to be leaking he believes the physicist did. I told him that the 1/16 letter referring to disposal is all I have. I informed him that I will terminate the Co-60 license but ms Cabell had the nuclear med. license action and that when RAM is removed he must perform a closeout survey for our review I told Tim Dwyer of 12/10/92 letter + leaking source incase we decide to perform our own survey before we terminate the N.M. license
