Ken, got your message, understand your in a class.

For starfire I tried ST with and without the procedure code, and ER with and without the procedure code. Only having a problem with the "inspection" part, not the doc and prep. None of the "experts" in the region know exactly what the right process is or why the entries I tried aren't working so I'm trying to find out what worked for you in RIII.

I'm hoping to get a pgp version of the Insp. report out today or tomorrow.

Also, I wanted to thank you and Alex for making it a pleasure have assisted with this inspection. If you need any help in the future, do not hesitate to ask.
