Conversation with Jim Hatten, RSO on May 12, 2006 and  
May 15, 2005.

The reviewer spoke to the RSO to get a better idea about the COO that is occurring. The RSO explain that the person who signed the letter concerning the COO represents the new owner Serologicals Corporation. The reviewer explained that while all the information was addressed as required in NUREG 1556, Vol 15, we still needed a signature from Linco Diagnostic Services, Inc. showing approval of the COO. The RSO faxed his signature concerning the COO in fax dated 5/12/06. Since no changes are to be made to the license, no amendment is required and a letter authorizing the COO will be sent to the licensee. Also, the licensee did notify the NRC prior to the COO taking place so no violation occurred.
